A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

D. STRENGTHS

What are WONG KOK RUI's strengths?

Comments
he is strong in coding and teaching at the same time. the best choice that I have made in this semester is to sign up for his lessons.
He responds to help requests quickly, so when students are stuck on questions, students would not agonize over those questions for too long.
He is very thorough and is willing to help us anytime.
He's very patient and comprehensive when explaining abstract topics. Often times he even opens the floor to questions outside of the current lesson's scope so as to aid us in our understanding. Recently, he even recorded himself "taking a Practical Exam" while explaining clearly his thought process while attempting different questions – which was obviously super helpful. Man deserves a teaching award at this point.
He also prompts individual thinking instead of giving away the answer, which helps a lot for our tasks and assignments.
passionate for the subject, provide alot of consultations and always reply to our questions quickly even though he is very busy. well-prepared for all our tutorials and provide us with extra materials

E. AREAS FOR IMPROVEMENT

What improvements would you suggest to WONG KOK RUI?

Comments
nil
Give clearer hints for assignments.
—
His schedule is pretty packed so it's difficult to book a consultation slot with him. His fast replies on telegram chatgroups/dms do sort of balance it out though.

F. SELF-REFLECTION

1. When comparing these results to the previous year's results, what areas have shown improvement?
2. What areas remain to be improved and what are the necessary steps / actions to do so?
3. Are there colleagues who could potentially guide me?
4. Are there issues that require departmental or institutional support?
